## IMPACT 2023

IMPACT is a youth service event open to middle and senior high youth groups that offers an opportunity to serve the community as the hands and feet of Christ. This year's IMPACT will be based in Newnan and projects are expected to include:

1. Working on tornado recovery projects in areas that were affected by the storms in 2021
2. Build/repair projects for local homeowners in need (wheelchair ramps, exterior painting etc.)
3. Assisting other local nonprofits as they serve those in need in the community

Clothing should be appropriate for a construction site or other job that could be dirty and messy. Close-toe shoe are required. Hat and sunscreen recommended, and we ask each group to bring a cooler or two filled with ice. SFM will provide bottled water.
